Professional Summary

Full Stack Developer with 3+ years building web and mobile products end to end, mostly in Node.js, React, and React Native. Builds RAG pipelines with LangChain.js and vector search, runs Kafka-backed services, and handles deployment on a self-hosted Linux VPS with Docker and CI/CD. Comfortable owning a feature from database schema to shipped UI.

Skills

- **Frontend & Mobile** — React.js, Next.js, TypeScript, Redux, React Native, Tailwind CSS, Material UI, HTML5, CSS3
- **Backend & Messaging** — Node.js, Express.js, REST APIs, Socket.IO, Apache Kafka (partitioning, consumer groups), Microservices
- **Databases & Caching** — MongoDB, Mongoose ODM, MySQL, Redis (caching, session management)
- **AI & RAG** — LangChain.js, MongoDB Atlas Vector Search, ChromaDB, Semantic Search, Prompt Engineering, LLM APIs (Gemini, Claude)
- **DevOps & Security** — Docker, Linux VPS, CI/CD, Coolify, Nginx, Git, GitHub, Postman, OWASP Top 10, JWT, RBAC, Rate Limiting, TLS
- **APIs & Methods** — Meta Graph API, Firebase Admin SDK (FCM), Google OAuth, Geocoding API, Agile/Scrum, Offline-First Design

Professional Experience

- Software Developer, Laxmi Enterprises**
 - Built distributed Node.js services on Kafka and Redis across 3+ microservices.
 - Implemented real-time Socket.IO channels for live dashboard updates, replacing client polling with push delivery.
 - Self-host production services on a Linux VPS with Docker, Coolify, git-push CI/CD, and automated redeploys.
 - Built React.js and Redux frontends with memoized selectors and virtualized rendering for large data grids.

09/2025 – Present | Hybrid
- Freelance Full Stack Developer, Independent**
 - Delivered 4 client web and mobile builds in React.js, React Native, Next.js, and Node.js, owned end to end.

06/2025 – 08/2025
- Software Developer, Progressix**
 - Delivered 4+ enterprise MERN applications with JWT and RBAC security serving 15,000+ users.
 - Cut API response times by 35% via Redis caching and server-side pagination on high-traffic dashboards.
 - Built a reusable React.js and Express.js component library adopted across 4+ internal systems.

07/2023 – 06/2025 | Remote
- Customer Operations Executive, Concentrix**

04/2021 – 06/2023 | Remote
- Professional Cricket Player**

Projects

- RAG-Powered Document Intelligence and AI Search,**
Node.js, Express.js, TypeScript, React.js, React Native, LangChain.js, Google Gemini API, MongoDB Atlas Vector Search
 - Built a full-stack RAG system over PDF, DOCX, and CSV uploads with LangChain.js chunking and Atlas Vector Search.
 - Grounded answers in retrieved context with inline source citations for hallucination-resistant responses.
 - Integrated the Gemini API into a React Native app for context-aware semantic product search.
- Lead Management CRM, MERN, Redux, Meta Graph API, Firebase FCM, JWT, RBAC**
 - Unified manual entry and Facebook/Instagram Lead Ads into one role-scoped CRM with cron-driven FCM reminders.
 - Ingested Instant Form leads via Facebook OAuth and HMAC-verified webhooks, with deduplication and ad-level attribution.
 - Secured the API to OWASP Top 10 with JWT/OTP auth, RBAC, rate limiting, and AES-256 encryption of Meta tokens.
- Real-Time and Event-Driven Systems, Apache Kafka, Socket.IO, Node.js, React Native, React.js, MongoDB, Express.js**
 - Designed an event-driven order-tracking platform on Kafka with topic partitioning and manual offset management.
 - Built real-time multiplayer Ludo and Rummy in React Native with authoritative server state sync and failover recovery.

Education

- Full Stack Development Bootcamp, UpGrad**

12/2022 – 07/2023
- Bachelor of Computer Applications (BCA), Vivekananda Institute of Professional Studies, IP University**
